MaxVision LLC is pleased to announce that, effective December 9, 2010; we are a registered company with the U.S. Department of State, Directorate of Defense Trade Controls (DDTC) pursuant to the Arms Export Control Act (AECA) and the International Traffic in Arms Regulations (ITAR Part 122). ITAR is a set of regulations for controlling the export and import of defense-related articles, information and services listed on the United States Munitions List.

MaxVision is committed to maintaining compliance with export and import regulations that are defined and enforced by either the U.S. State Dept or U.S. Commerce Dept to ensure the products we may manufacture, services we may render or information we may share is not transferred to a foreign entity/person without prior authorization.

About MaxVision

Founded in 1993, MaxVision manufactures rugged, portable and transportable servers, workstations and accessories with no compromises in performance. MaxVision patent-pending designs provide extensive customization, including advanced air filtration systems, advanced power conditioning, and certified tolerance for extended runtime within 0 - 50 degrees Celsius (32 - 122 degrees Fahrenheit). For more information, visit www.MaxVision.com.
